PENTEK CBR2 SERIES
CARBON BLOCK MULTI-MEDIA CARTRIDGES

POWDERED ACTIVATED CARBON WITH ADSORBENT MEDIA

Pentair Pentek® CBR2-10 and CBR2-10R Cartridges are advanced multi-media cartridges designed to reduce chlorine taste & odor and other contaminants.

CBR2 Series Cartridges are manufactured using a powdered activated carbon (PAC) with a specially designed adsorbent media.

These cartridges are protected by a uniquely formulated polyolefin bilaminate prefilter, designed to significantly increase the useful life of the cartridge by trapping sediment that typically plugs carbon block cartridges.

As with our standard Pentek CBC Series Carbon Block, both the CBR2-10 and CBR2-10R are effective at reducing levels of chlorine taste & odor and other contaminants.*

The CBR2-10R has a built-in flow restrictor (0.6 gpm) to allow for maximum contact time.

FEATURES/BENEFITS

Reduces particles as small as 0.5 micron in size by mechanical means*

Premium high capacity chlorine taste & odor reduction exceeding 20,000 gallons*

SPECIFICATIONS

Filter Media – Bonded PAC
Endcaps – Polypropylene
Outer Wrap – Polyolefin
Netting – Polyethylene
Gaskets – Buna-N
Temperature Rating – 40-165°F (4.4-74°C)

*Based on manufacturer’s internal testing
EPA EST. NO. 082989-CHN-001

This CBR2-10 and CBR2-10R are Tested and Certified by NSF International to NSF/ANSI Standard 42 for material requirements only.
