

IL Series Stainless Steel Single Cartridge Housing

IL Stainless Steel Filter Housing Series
for quick-fit clamp closure with single O-ring

APPLICATIONS

IL Series housings are ideal for hot water and high pressure applications not suited for plastic housings. These housings effectively provide heavy-duty filtration for smaller filtration systems and point-of-use applications. IL Series housings are easy to install and maintain. They are compatible with a complete range of filter cartridges, adding to their versatility.

IL-10C (20C, 30C, 40C)

SPECIFICATIONS
