

HXP UPVC BAG FILTER HOUSING

HXP Bag filter system is a new filter system. It is character with high precision, big flow, easy installation and maintenance. So it can be widely used in the field of liquid treatment: foods, cosmetics, chemistry, medicine, textile, etc. It consists of the housing, support basket, and the filter bag.

Product merits:

- ∞UPVC material has good corrosion resistant.
- ∞The unique seal system makes the filter more safety.
- ∞It can prevent the bag from plunging into the support basket and inner leakage.
- ∞Good appearance and compact inner construct.
- ∞High precision, the filter range can be from 0.5~200um.
- ∞ High efficiency of filter; quick flow of liquid, big capacity of impurity.
- ∞ The price is more competitive.
