

# Washable Roll: Washable Polyester Media (WPM)

## General

WPM is the most of all basic filter in the whole series of filtration products. It is easy to manage, light in weight, re-usable, flexible in size and for easy replacement. WPM serves as the pre-stage of filtration and usually goes together with aluminium frame.

## Standard Specifications

- Polyester Media
- Comes in thickness of 3mm, 10mm, 15mm, 20mm, 25mm
- Width x Length: 2m x 20m
- International shipping packaging
- Comes in 3 different efficiencies (G2, G3, G4) of your choice
- Available in rolls impregnated with activated carbon
- Available in any custom-made size

Model	Efficiency	Width x Length	Thickness	Media / Colour	Grammage
WPM-3	G2	2m x 20m	3mm	Polyester / White	90 g/m2
WPM-10	G3	2m x 20m	10mm	Polyester / White	125 g/m2
WPM-14	G3	2m x 20m	14mm	Polyester / White	140 g/m2
WPM-20A	G3	2m x 20m	20mm	Polyester / White	265g/ m2
WPM-20B	G4	2m x 20m	20mm	Polyester / White	315 g/m2
WPM-25	G4	2m x 20m	25mm	Polyester / White	350 g/m2
WPMBW-290	G3	2m x 20m	20mm	Polyester / White & Blue	225g/ m2
WPCB-3	G2	1m x 20m	3mm	Carbon Polyester / Black	145 g/m2
WPCB-10	G3	1m x 20m	10mm	Carbon Polyester / Black	185 g/m2
